1894.

# TOWN WARRANT.

---

*To Charles H. Pierce, a Constable of the Town of Farmington, in the County of Franklin,*

GREETING :

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said Town of Farmington, qualified by law to vote in town affairs, to assemble at Music Hall, in said town, on the fifth day of March next, at ten o'clock in the forenoon, to act on the following articles, to wit. :—

- ARTICLE 1. To choose a Moderator to preside at said meeting.
- ART. 2. To choose all necessary town officers for the ensuing year.
- ART. 3. To see what sum of money the town will vote to raise for the support of schools the ensuing year.
- ART. 4. To see what sum of money the town will vote to raise for the support of a Free High School the ensuing year.
- ART. 5. To see what sum of money the town will vote to raise for the purchase of school-books.
- ART. 6. To see what sum of money the town will vote to raise for the support of the poor the ensuing year.
- ART. 7. To see what sum of money the town will vote to raise to defray town charges the ensuing year.
- ART. 8. To see what sum of money the town will vote to raise to pay outstanding indebtedness.
- ART. 9. To see what sum of money the town will vote to raise to pay interest on outstanding indebtedness.
- ART. 10. To see what sum of money the town will vote to raise for the repair of roads and small bridges.
- ART. 11. To see what sum of money the town will vote to raise for the repair of large bridges.
- ART. 12. To see if the town will vote to raise the sum of seventy-five dollars to meet the expenses of Memorial Day.
- ART. 13. To see if the town will vote to raise the sum of one hundred and twenty-five dollars, to provide a public drinking fountain for man and beast. Said fountain to be located by the Selectmen within the limits of Farmington Village Corporation, so as to be

reasonably convenient. Water for said fountain to be furnished by the Farmington Water Company, as per contract with the Farmington Village Corporation, without charge to the town.

- ART. 14. To see what sum of money the town will vote to raise for the abatement of taxes the ensuing year.
- ART. 15. To see what sum of money the town will vote to raise for the collection of taxes for the ensuing year.
- ART. 16. To see if the town will vote to ratify the action of the County Commissioners in discontinuing the road leading from the Titcomb road to the Industry road, so called.
- ART. 17. To see if the town will vote to build the road as laid by the County Commissioners, beginning near the corn factory of Hiram Titcomb, thence easterly to the Industry road.
- ART. 18. To see what sum of money the town will vote to raise to build said road.
- ART. 19. To see if the town will vote to raise one hundred dollars to build a sidewalk from the residence of H. P. White to Riverside Cemetery.
- ART. 20. To see how the taxes shall be collected, and when made payable.
- ART. 21. To see how the inventory shall be taken the ensuing year.
- ART. 22. To see what action the town will take, if any, to recompense Mrs. Almira Gilbert, on account of the death of her husband, by drowning last Spring, near the Red Bridge.

The Selectmen give notice that they will be in session for the purpose of correcting the list of voters in said town, and hearing and deciding upon the application of persons claiming to have their names entered upon said lists, at the Selectmen's Office, at two o'clock P. M., Saturday, March 3, A. D. 1894, and at nine o'clock in the forenoon on the day of said meeting.

Given under our hands this seventeenth day of February, A. D. 1894.

J. W. FAIRBANKS,	}	<i>Selectmen of Farmington.</i>

A true copy.

Attest :

CHARLES H. PIERCE,  
*Constable of Farmington.*

# SELECTMEN'S ANNUAL REPORT.

---

*To the Citizens of the Town of Farmington :*

The following report of receipts and expenditures for the fiscal year ending February 17, 1894, is submitted to the tax-payers of Farmington :

## VALUATION AND ASSESSMENTS.

The valuation as taken in April is as follows :

Real Estate,	\$1,229,215 00
Personal Property,	532,755 00
Total Valuation of Real and Personal Property,	\$1,761,970 00
Number of Polls,	910

Upon the polls and estates we have assessed the following sums, to wit. :

For State Tax,	\$ 5,154 46	
County Tax,	2,713 17	
Support of Schools,	3,500 00	
School Books,	500 00	
Support of Poor,	2,060 00	
Town Charges,	2,000 00	
Outstanding Indebtedness,	1,000 00	
Interest on same,	550 00	
Roads and Small Bridges,	5,000 00	
Large Bridges,	1,500 00	
Memorial Day,	75 00	
Abatement of Taxes,	300 00	
Collection of Taxes,	300 00	
Appropriation for land damage and building road over Powder-House Hill,	800 00	
Appropriation for sidewalk to Walton's Mills,	150 00	
Overlays,	1,078 53	
Total amount,		\$26,681 16

On the 24th day of June, 1893, the lists of the above assessments were committed unto Charles H. Pierce, Collector for the town.

Subsequently a supplemental tax was assessed and committed to the Collector, of \$55.66, making the total commitment, \$26,736.82.

#### SCHOOL DISTRICT NO. 4.

Value of Real Estate,	\$589,220 00	
Personal Property,	341,345 00	
Total valuation of Real and Personal Property,		\$930,565 00
Number of polls, Three Hundred and Forty-three.		
On the polls and estates we have assessed the following sums :		
For Free High School,	\$700 00	
Overlays,	35 54	
Total amount,		\$ 735 54

## SUPPORT OF SCHOOLS.

Amount of money raised by town,	\$3,500 00
School Fund and Mill Tax,	2,203 68
Interest on Town School Fund,	51 33
Total amount of school money,	\$5,755 01

We have apportioned the above amount of money to the several districts, as follows, to wit. : \$6.36 per scholar in union districts, and \$6.10 per scholar in the other districts, dividing the balance of \$225.01 among the smaller districts.

No.	DISTRICTS.	Number of Scholars.	Balance Feb. 16, 1893.	Amount Apportioned April 1, 1893.	Amount of Orders drawn since Feb. 17, 1893.	Balance Feb. 16, 1894.

# SCHOOL REPORT.

---

*To the Citizens of Farmington :*

In accordance with the Statutes, your school committee offer this Annual Report. During the past year the members of the School Board have been faithful and energetic in their work, and have aimed to keep up the high standard which our schools have reached, and at the same time to keep within the limits of reasonable expenditures. The opportunities offered the children of Farmington to obtain an education are equal to any similar town in the State.

This is a farming community, and it is sometimes difficult to so manage as to secure just what seems desirable, without, what may appear, a great outlay of money. There have not been any unusual expenditures during the year for school work. We have secured the services of Mrs. Mittie Wade as teacher in music for the Village Schools, and in School District No. 9 at West Farmington, and No. 3, Norton District, which we think has been money well expended. Farmington can boast of its musical talent in the past, and it is well for us to recognize the fact that we must advance with the times and try and raise it to a higher standard in our schools, so as not to retrograde in the least.

The High School is the finishing of the public-school education, and here, if anywhere, we must provide the best. Now if the town will provide money for a High School, we can bring it to a standard that cannot be excelled in the State. We are a progressive community and recognized among the people of the State. No one who is interested in the prosperity of Farmington, and prosperity is quite accurately determined by the schools which the community supports, will object to expenditures for such a purpose. There should be another teacher in the High School, soon, to advance the course to a higher grade of usefulness—to go higher is the aim of the school officers. This is essentially a progressive age, and there is a tendency in operation to improve school work in every direction.

The high grade of the school should be to *lead*, not to *follow*. Now there is need of great liberality on the part of the citizens, as well as of care on the part of those entrusted with the management of school affairs, to meet the changes necessary.

The safety of the community in which we live depends upon the education of its citizens, but the full import of the word education must be understood. While we attend carefully to the physical and mental needs, we are in danger of neglecting the higher and more important, the moral life. Intellectual education of itself will not make men better. It is not wholly by set lectures that the moral character is affected. The everyday life of the teacher is more powerful with pupils than any words she may utter. Let the teacher herself be impelled with the spirit of success. Let her realize that the only true success lies in manhood and womanhood. You need not enter a schoolroom to obtain a just conception of its teacher—she is reflected in the actions of the children under her care. In their plays the little ones unconsciously use even the tones of the teacher.

The School Board feel to express their thanks to all who have taken an active interest in the public schools. It is important here that all should work together for the common weal. The foundation of the nation is the public schools. See to it, parents, that you are liberal to your children, and give the best that the tax-payers can vote at the annual meeting.

In conclusion we wish to thank Superintendent Hunt for his harmonious work with the School Board in carrying out their wishes during the past year, and express the hope that our schools during the next year may meet with continued prosperity.

Special attention is called to the report of Superintendent Hunt, which follows on subsequent pages. We cordially endorse his recommendations regarding the High School and the erection of new school-houses at West Farmington and Fairbanks.

All of which is respectfully submitted.

F. O. LYFORD,	}	<i>School Board of the Town of Farmington.</i>

H. H. RICE,		

## SUPERINTENDENT'S REPORT.

---

*To the Superintending School Committee of the Town of Farmington :*

I have the honor of submitting to you this, my second annual report as Superintendent of Schools in the Town of Farmington.

We believe the year of 1893 and 1894 has been a success, and at the outset I most sincerely thank you for your continual aid and confidence. And more than all I wish to thank our citizens at large for the generous support given the schools throughout the year.

As will be seen on subsequent pages, district limits remain unchanged, except in No. 2, which was reinstated in the early spring, giving the children in that district three very pleasant and profitable terms of school. Arrangements have been made from time to time for the transportation of pupils from suspended districts, thus giving many of our children in remote places, better advantages for school.

Those in suspended districts were schooled as follows: those in No. 16 were schooled in No. 15; those in No. 21, in No. 5; those in No. 17, in Nos. 3 and 4. As not enough pupils in No. 10 would attend to maintain a profitable school, it seemed advisable to school those children in Nos. 9 and 4, and transfer the money to those districts respectively. A unanimous and very wise desire of your School Board has been continuity of teachers. The good results from this important step have been plainly visible throughout the year, especially in some of our small rural schools of two terms each.

This not only has avoided much loss of time, but much better results have been accomplished in every instance, with the same amount of money expended.

Districts No. 7, 12, 15, 19, 20, and 9, with the exception of assistant during the spring term, have had the same teacher throughout the year, as also the three lower grades in No. 4.

Schools in No. 2, 3, 5, and 22, have had the same teachers for two consecutive terms.

Centralization and consolidation of districts are being discussed by the parents in our rural districts at the present time, and we are pleased to notice the prevailing desire for longer and better schools at much less expense.

The all-important and much-agitated question of the day is our future high school. What will it be, a district or a town affair? We are pleased to notice that many of the interested parents in our rural districts are desirous of a high school where their children can have equal advantages with the Village district without tuition. As we have about the same number of high school scholars in our rural districts as in District No. 4, we would have from 90 to 100 in this grade, which, with sufficient funds for its support, would place Farmington's high school among the best in our State.

A very important step towards the judicious expenditure of school money and the better education of our children is the erection of new and commodious school buildings in No. 9 and 5. These buildings should be of sufficient size to accommodate two schools of 50 each. We also recommend heating by steam and furnishing with modern appliances, with such dressing-rooms and sanitary arrangements as are necessary for the convenience and health of the boys and girls in these districts.

#### TO THE PARENTS.

In every interview with the parents have found them ready to aid us at all times to promote the best interests of our schools, although we think in a few instances, they have been careless regarding the attendance of their children. Parents should remember that they can remedy this great evil and loss by the pupil, which is a great hinderance to good results in the schoolroom.

Why so many tardy marks? Why this absenteeism?

We admit that in many cases unavoidable causes arise. Living remote from school, storms, sickness, etc., are just causes for irregular attendance, but we believe a greater effort on the part of the parents would enable the teacher to present much cleaner records at the close of school and also lessen the truant officer's bill.

Irregular attendance not only affects the pupil himself, but affects his class. The whole school suffers, and must wait till the teacher aids him over lost recitations. We believe the prosperity of our schools depends largely upon your interest. Have known many instances

where parents have offered their children small prizes for regular attendance through a single term. Those prizes are rarely lost except by sickness. Money well expended.

We believe the schools and school officials of Farmington have the sympathy of the parents, which has aided materially in placing high the standard of our schools.

### OUR VILLAGE SCHOOLS.

These schools have done commendable work throughout the year, and the upward trend has been visible from term to term. The First Primary during the spring term was somewhat crowded, but the teacher interested and controlled her school of about sixty, ranging from 4 to 9 years of age, with much tact and skill. That the advanced classes in the Second Primary and Intermediate were promoted with highest honors is sufficient proof of the excellence of these schools. A few of the advanced classes in the Grammar School failed to reach the required standard for promotion at the close of the spring term, which was due to lack of energy on the part of the pupil, absence, tardiness, etc. This somewhat retarded the progress of the class, but by the enforcement of Rule 17, which allows the promotion of only those who have reached an average of 75 per cent. in all their studies, the advanced pupils were promoted, while the others were required to do the work over again.

We believe holding a class as a unit to be an error very injurious to those pupils able mentally and physically to do the required work, while much greater injury comes to the pupil who is allowed to pass over work he knows nothing about and cannot comprehend. With the ability of the teacher in this grade and the enforcement of this rule success will follow. As the work in this room much exceeds the work usually done in grammar grades, we advise re-grading and promoting at least one class to the High School room, where, with the addition of an extra teacher, these pupils might receive much better advantages.

At the close of the fall term the School Board received the resignation of Principal D. L. Whitmarsh. Before accepting, he was asked to remain through the year. His decision was final. His departure was deeply regretted by school officers and parents. The high esteem in which he was held by his pupils was plainly shown at the close of his services.

Subsequently the School Board engaged the services of Mr. A. S. Burnham, a graduate of Dartmouth with the degrees of A. B. and A. M.

Mr. Burnham has had large and successful experience in this State and Vermont, is entirely at home in the schoolroom, reserved and dignified in appearance, and we bespeak for the citizens of Farmington a valuable member of society, and for the schools of No. 4, a principal under whose able efforts progress is certain.

The instruction in vocal music is considerable above par in the lower grades, and much interest is manifested daily by every pupil. Although the interest in the Grammar and High Schools is not what is desired, yet we feel these schools would miss the weekly lessons and daily rehearsals, for no public school is complete without music.

During the fall term the course of study was somewhat changed, and is now in process of adjustment to the work of the different grades. Good results are being evidenced, and we feel assured the Committee on Instruction, together with the teachers, will effect such changes in the course of study as will seem advisable for the best interests of the schools in future.

The teachers have done their work faithfully and conscientiously, the majority of them discreetly and intelligently.

Much credit is due them, especially the Principal and his worthy assistant.

#### RURAL DISTRICTS.

Unusual interest has been manifested in our rural schools, and in nearly every one satisfactory work has been accomplished. In a few instances slight friction between teacher and pupils retarded the desired progress for a day, but all difficulties were at once amicably settled, teachers and pupils striving for best results at close of the school year.

The honest efforts of the pupils, generally in these schools, to keep pace with the graded Village schools, has been a noticeable feature throughout the year.

These efforts, with the co-operation of parents and earnest efforts of the teachers, are conducive of nothing but best results.

During the fall term Mrs. Mittie Wade was elected music teacher in District No. 9, to give one lesson per week. This branch of instruction at once gave an increased interest to this school, and we believe has materially affected irregularity of attendance since its introduction. We highly appreciate the efforts and work of the smaller schools, but we feel safe in saying the best results have been received where we have had necessary funds to place able, experienced teachers.

Commendable work is being done in Districts 3 and 9. This is Miss Goding's first term in No. 3, but her work will bear inspection. To see is to appreciate, and we ask teachers, parents and citizens to visit these schools.

## STATISTICS.

Amount of money raised by town,	\$3,500 00	
School Fund and Mill Tax,	2,203 68	
Interest on Town School Fund,	51 33	
	<hr/>	\$5,755 01

The above amount of money has been apportioned to the several districts as follows: \$6.36 per scholar in union districts, and \$6.10 per scholar in the other districts, dividing the balance (\$225.01) among the smaller districts.

## CONCLUSION.

The outlook for our schools was never more hopeful than at the present time.

The prosperity of our schools in the future will depend largely upon those who may be chosen to manage this important interest. We believe our future school officials will be free from all sectarian and political influences, firm friends of free education, and those whose purpose in this relation will be to promote the interests of our schools and increase their usefulness.

Another year's work with the teachers has simply added to my appreciation of the spirit that animates them as a body.

Their cordial co-operation, the unfailing encouragement and support of the School Board, and the kind consideration shown me by the parents, have made the work of superintending very easy and pleasant.

Courses of Study in the High School, and a tabulated report of schools for the year may be found on subsequent pages.

Respectfully submitted.

J. J. HUNT, *Superintendent of Schools.*

## Courses of Study in the Farmington High School.

---

As indicative of the excellent work of this school we may remark that two of the members of the last class were admitted to college without condition, and the reports from them indicate that they are now doing good work with their college classes.

There are two courses of study—the College Preparatory and the English. In some cases the studies are alike in each. The direct object of the College Course is to prepare the boys and girls for college, while giving them the essentials of a good English education. It is a pleasure to note that the boys and girls who are now in the school are showing great interest in this Course and are doing very good work. The English Course is intended to give a good training in the common and higher branches of English. Hereafter it is the intention of the School Board to issue diplomas only to those who have completed in a creditable manner one of these courses of study. It is not enough that a pupil should be in the school a certain length of time, there must be a certain amount of work well done. To this end the School Board earnestly solicits the co-operation of the parents. Steady and constant effort must be put forth on the part of the pupils, who unless carefully watched over and encouraged to do their best are likely to fall behind. Nothing but sickness or inability should excuse a pupil from keeping up with the class. Only a reasonable amount of work is required, and the pupils who give attention to it can readily do it day by day. Neglect to do this work makes it the unpleasant duty of the school officers to keep back such as retard the progress of those who are striving to go ahead. The welfare of the school has called for this action the past year, but with the co-operation of those interested in the school, it is hoped there may be no necessity of such action in the future.

The scope of the high school work may be gathered from the general outline of the two courses of study which follow :—

### COLLEGE PREPARATORY COURSE.

#### FIRST YEAR.

Review Arithmetic ; Algebra ; Latin Lessons ; American Authors ; English Grammar and Composition.

## SECOND YEAR.

Plane Geometry; Cæsar; Greek Lessons; English History; Rhetoric.

## THIRD YEAR.

Cicero; Xenophon; General History; Greek and Latin Prose.

## FOURTH YEAR.

Virgil; Homer; Greek and Roman History; review Arithmetic, Algebra and Geometry.

General Exercises throughout the course.

## ENGLISH COURSE.

## • FIRST YEAR.
